

It is such a joy to listen to K-love as I drive to work or anywhere. My children love the music and I love to listen to the word. Some people cannot go to church to hear the word and they rely on K-Love to bring it to them. I have teenagers that fight the cause and when they hear K-love they seem to listen and sing along and that makes me feel good. I love our father in heaven and young children need him more than ever. K-love brings them what they need.
